Technical Specifications

|                       |                                       |
|-----------------------|---------------------------------------|
| Hot Water Temperature | 85–90°C (thermostatically controlled) |
| Normal Water          | Ambient (25–32°C)                     |
| Normal Tank Capacity  | 80 L                                  |
| Hot Tank Capacity     | 5 L                                   |
| Dispensing Taps       | 2 — Hot , Normal                      |
| Heating Element       | Immersion heater, 1000w               |
| Housing Material      | SS304                                 |
| Drip Tray             | Removable SS304 drip tray             |

|                    |                                            |
|--------------------|--------------------------------------------|
| Indicator          | LED — hot ready / power ON                 |
| Power Supply       | 230V / 1-phase / 50Hz                      |
| Power Consumption  | Heating: 1000W   Standby: 30W              |
| Dimensions (L×W×H) | 480 × 480 × 1400 mm (floor-standing)       |
| Weight             | 50 kg (approx)                             |
| Warranty           | 1 year comprehensive (compressor: 2 years) |
| Standards          | ISO 9001:2015   BIS IS 14543 compliant     |

F

Key Features

- ▶ Food-grade SS304 inner hot tank — corrosion-free
- ▶ Hot (upto 90°C) and Normal — two independent circuits
- ▶ Removable stainless drip tray — easy cleaning
- ▶ LED indicators for process ON, Heater ON, Tank Full
- ▶ Available in floor-standing and tabletop configurations
- ▶ BIS compliant materials — food-safe throughout

A

Applications

- ▶ Corporate offices and business parks
- ▶ Hospital OPD waiting areas
- ▶ Schools, colleges and libraries
- ▶ Hotels and restaurant service areas
- ▶ Government offices and court premises
- ▶ Factories, production areas and warehouses
- ▶ Banks, showrooms and retail outlets
